📍 Hyderabad

PROFILE

Aspiring Full-Stack & AI Developer with hands-on experience in Python, Streamlit, AI/ML model development, computer vision, and Android app development. Skilled at designing real-time interactive systems, AI-powered applications, and scalable software solutions. Proven ability to deliver measurable improvements in performance and usability through innovative solutions.

EDUCATION

2023 - PRESENT

ACE ENGINEERING COLLEGE

- B.Tech Computer Science Engineering

WORK EXPERIENCE

VISWAM.AI   AUGUST 2025 - PRESENT

AI Developer Intern

- Completed an AI training program with hands-on projects in Python and Streamlit, contributing to a job-packing algorithm that reduced computation time by 25%.
- Contributed to open-source AI projects on GitLab, developing a user-facing tool while applying Prompt Engineering, Supervised/Unsupervised Learning, and ModelOps.

EduSkills   APRIL 2025 -JUNE 2025

Android Developer Virtual Internship

- Completed a 10-week Android Developer Virtual Internship, strengthening my technical skills in Kotlin and gaining hands-on experience in building scalable mobile applications.

PROJECTS

GenEDxAI - AI Powered Chatbot for Education

Oct 2024 - Jan 2025   (AI/ML)

Built an AI-based education app using Python, Streamlit, and Google Gemini AI Enabled smart Q&A, adaptive quizzes, and progress tracking with MongoDB Designed responsive UI with real-time AI interaction and secure login system

PRESENTATION HANDLER USING HAND GESTURE

Feb 2025 - Jul 2025   (AI/ML)

- Designed a real-time hand gesture recognition system using OpenCV and MediaPipe to control presentations without physical input devices.
- Implemented gesture classification for next/previous slide and custom commands, achieving <200ms response latency.

SKILLS

- Programming: C/C++, Java, Python(familiar)
- Development: HTML, CSS, JavaScript
- Databases:MySQL
- CS Subjects: Data structures and Algorithms, OOPs concepts, Operating system
- Version Control: Git, Github

CERTIFICATIONS

- Cisco – Introduction to Cybersecurity
- Cisco – Data Analytics Essentials
- IBM – Data Analysis Using Python
- IBM – Python 101 for Data Science
- Accenture – Data Analytics & Visualization Job Simulation
- Deloitte – Data Analytics Job Simulation
- JPMorgan Chase – Software Engineering Job Simulation
- TATA – Data Visualisation
